

Mosquito Curtains are an elegant, cost-effective alternative to permanent screening. Removable and washable, custom-made Mosquito Curtains provide elegant insect protection to any outdoor space. With our outdoor tracking system, clients can enjoy an “open porch” whenever they choose. It’s pest protection with class!

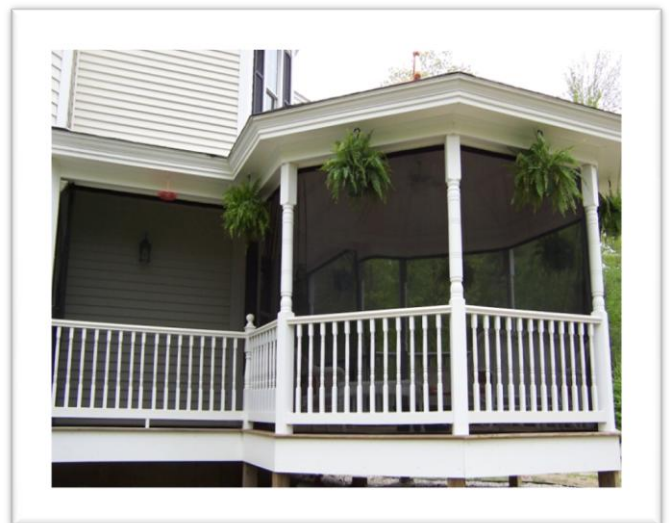

As a family-run business, we emphasize providing an exceptional customer experience, and stand behind our product with a money back guarantee. This promise extends to each of our re-sellers as well.

We are proud to say that we have been in business for over 6 years, with over 25% annual growth, even in a poor economy. You can feel confident that a strong, growing, and profitable business is behind you.

#### **Features and Benefits:**

- Removable & Washable.
- Cost Effective – About 1/3 the cost of permanent screening.
- Easy to install – Average install is about 4 hours, meaning more \$ per man-hour.
- Quick Delivery – Ships within 3 days.
- 100% Satisfaction Guarantee.
- Flexible for ornate architecture.
- Solution dyed for fade resistance.
- Profitable for resellers.

Your clients will be thrilled with the results, solidifying your relationship for future business, and driving referrals.

Use Mosquito Curtains on:

- Covered Decks
- Porches & Patios
- Gazebos
- Pergolas
- Garages
- Restaurants & Hotels
- Warehouse & Commercial
- Fabric sculptures & more!

***Mosquito Curtains are perfect for the porch too beautiful to screen!***

### **NEW CLEAR VINYL CURTAINS!!**

Our clear vinyl curtains allow customers to winterize their decks and patios. Less expensive than other vinyl systems, our clear vinyl curtains offer year round use to any outdoor space. The clear vinyl panels use the same track as the mosquito curtains. You can expect many of your Mosquito Curtain customers will return to you later for the winter panels, potentially doubling your sales per call.

Clear Vinyl Product Information:

- Double polished marine grade
- 14 mil Clear Vinyl
- California fire rated (NFPA 701)
- Max roll width = 75"
- *Cold crack test to 0° F or -15° C*
